

Lyndhurst MkII

Variable Height Couch Range

The Lyndhurst MkII range of three-section couches are available with either electric or hydraulic variable height operation. The models are designed for use in GP surgeries and similar establishments. Both couches are suitable for a range of treatments and minor operations.

A Lyndhurst MkII Three-Section Electric

- Electric hand-set control
- Maximum user weight 160kg (25 stone)
- Manually adjustable self-locking backrest and foot section
- Head down-tilt and feet-up positions
- Retractable castor for ease of movement
- Simple levelling for uneven floors
- Paper-roll holder
- Durable, magnolia epoxy coating with Biocote®

Product Code: COU83
